

# NewSpring Church Groups Guide

Guest Speaker — Pete Wilson — Plan B

The story of Joseph is one of the most compelling stories in the entire Bible. Every time Joseph's life seems to be in complete disarray, God intervenes and raises Joseph to a position of power and leadership. When Joseph's world begins to crumble, he never questions God's power or presence. Joseph is able to handle all the things that come his way because he knows God is in control, and God has a plan for his life.

- What would you do if you were absolutely confident God was with you?
- What do you reach for when your world is crumbling around you?
- When have you felt as if God was absent only to discover later He was powerfully present?
- What areas of your life are you refusing to give God control?
- What are some of the good things that distract you and keep you from doing the great things you are being called to do?
- In what ways can people see Jesus in your life?

No matter what happened to Joseph he always knew God was in control. When your life begins to fall apart, do you remain confident about the goodness of God? As He did with Joseph, God often reveals Himself in powerful ways when we are broken and crushed. When we realize God is truly in control we can live life with the same confidence Joseph had. We will be able to dream big knowing God is still great and God is still good.
